**Reference:** ICETA 2021-15

**Main research field:** Archaeology

**Sub research field:** Anthracology, Environmental Archaeology

1. In a meeting the Board of Directors of ICETA, decided to open an international call for PhD holder Researchers, under a work contract for a non-fixed term. This announcement is intended for 1 (one) research position (**Reference ICETA 2021-15**) on the project “Exploitation and consumption of biological resources in western Iberia during Roman times – B-ROMAN” with reference PTDC/HAR-ARQ/4909/2020, supported by national funds by FCT / MCTES, to pursue scientific research activities in the area of Archaeology, sub-area of Biology, under a work contract for a fixed term, in order to develop activities in the project in the area of Anthracology.

The candidate will integrate the project team that will study the impact of Roman conquest in the exploitation of biological resources in the former province of Lusitania. Through the B-ROMAN project, new archaeobotanical and zooarchaeological data will be obtained in a vast number of archaeological sites, filling notorious investigation gaps. Isotopic analysis will also be conducted on selected elements from the archaeological plant and animal assemblages. In the end it will be possible to 1) understand how biological resources were exploited and integrated in the economic and territorial models implemented in Roman Lusitania and how it varied in space and time; 2) characterize the cities’ supply; 3) understand the role of the consumption and exploitation of such resources in the process of acculturation of the human communities and in landscape evolution.

The candidate will be responsible for collecting archaeobotanical remains in articulation with project partners, integrating and/or closely following archaeological interventions in several places. After processing and sorting of sediment samples, the candidate will conduct charcoal analysis, including the dendrological characterization of charcoal and wood. The study will comprise waterlogged botanical remains thus the candidate must also apply the appropriate procedures to their analysis, namely the morphological, technical and typological description of wood artifacts.

The candidate should also be able to contribute to both scientific and financial project reporting and participate and help organize project meetings, workshops and conferences both in Portugal and abroad.

2. Applicable Legislation Decree-Law no. 57/2016 of August 29th, amended by Law 57/2017 and Regulatory Decree No. 11- A / 2017 which approved the doctorate hiring regime destined to stimulate

scientific and technological employment for all knowledge areas (RJEC); Portuguese Labour Code, approved by Law 7/2009 of February 12, in its actual form.

**3.** Pursuant to article 13 of RJEC, the tender selection panel is formed by: João Tereso (researcher at CIBIO/InBIO, acting as chairperson by delegation of President of ICETA), Cleia Detry (researcher at Uniarq) and Carlos Fabião (professor at FLUL and researcher at Uniarq).

**4.** The workplace will be at CIBIO-InBIO headquarters in Vairão and the facilities of the Faculty of Sciences of the University of Porto.

**5.** The gross monthly salary entitle is stipulated in clause 1 a) of article 15 of the Regulatory Decree No. 57/2016, of August 29th, amended by the law nº 57/2017 of July 29th, corresponding to level 33 of the Consolidated Table of Allowances, as approved by Government Order No. 1553-C/2008, of December 31st, being 2.134,73 Euros.

**6.** Application can be submitted by any national, foreign and stateless candidate(s) holding a doctorate degree in Archaeology, History, Biology or related scientific areas and a scientific and professional curriculum whose profile is suited for the activity described below (item 7). In case the doctorate degree was awarded by a foreign higher education institution, it must comply with the provisions of Decree-Law no. 341/2007 of October 12th, and all formalities established therein must be complied with at the signature of work contract.

**7.** The tender admission general requirements are those defined in the previous point 6, along with the following specific requirements: the candidate should have experience in the study of carbonized and waterlogged archaeological wood. Besides taxonomic identification, such experience must include the characterization of dendrological features related with taphonomy and the life-history of the specimens, as well as the description of woodworked material. Preference will be given for candidates with experience in wood identification of western Iberian taxa. Alternatively, candidates will be considered with experience in the charcoal analysis in sites from other Iberian regions or from the Mediterranean in general. Candidates must show capacity to articulate archaeobotanical and archaeological data with historical interpretations at different geographic levels. All this experience must be validated by the (co)authorship of scientific papers in specialized journals.

Excellent speaking and written knowledge of Portuguese and English is required. The candidate should feel comfortable in multinational contexts and be able to communicate with researchers with different academic backgrounds.

**8.** Under the terms of article 5 of the RJEC, the selection is made through the evaluation of the scientific and curricular path of the candidates.

**9.** Scientific and curricular career evaluation focuses on relevance, quality and up-to-datedness:

a) of scientific, technological, cultural or artistic production in the last five years, considered most relevant by the candidate;

b) of research activities, fundamental or applied science, developed in the last five years, considered of higher impact by the candidate;

c) of knowledge extension and dissemination activities developed in the last five years, namely under the scope of the promotion of culture and scientific practices, deemed most relevant by the candidate.

**10.** The five-year period mentioned above can be extended by the panel, if requested by the candidate, whenever the suspension of scientific activities is reasoned by socially protected grounds like paternity leave, long-term serious illness, and other legal situations of unavailability to work.

**11.** Evaluation criteria are the following:

The evaluation of the CV of the candidates, in particular the scientific merit and research experience will take into consideration the elements presented for the last five years of activity falling within the scope of the specific areas of the tender (see Point 1) and will be performed according to the following criteria:

**11.1** Integrated assessment of the curriculum trajectory of the candidate, based on an overview of their scientific merits, namely:

I. Overall scientific coherence and adequacy of the CV (15%)

II. Diversity and quality of scientific indicators within the scope of the research area (see point 1) - 30%

III. Participation in research projects, students supervision and international event organization- 5%

**11.2.** Relevant experience in:

I. Collection, compilation and analysis of anthracological data - 15%

II. Writing of scientific papers - 20%

III. Experience in wood anatomy of western Iberian taxa - 15%

**12.** In the case of admitted candidates whose evaluation does not differ more than 10% from that obtained by the best positioned candidate, the jury will interview these candidates. This will be aimed at obtaining clarifications and explanations about the curricular elements and additional information as well as to evaluate the attitude profile and motivation of the candidate.

The final score of each jury member is obtained by the following assessment: 90% scientific and curricular career evaluation and 10% interview.

**13.** Candidate final classification system shall be given based on a scale 0 to 100.

**14.** The panel shall deliberate by means of roll-call vote justified under adopted and disclosed selection criteria, with no abstentions allowed.

**15.** Minutes of panel meetings shall be executed and include a summary of all occurrences of said meeting, as well as of all votes casted by the members and respective reasoning, and shall be provided to candidates whenever required.

**16.** After selection criteria application, the panel shall prepare a sorted list of approved candidates and respective classification.

**17.** Panel's final decision shall be validated by the leader of the institution, who is also in charge of deciding about the hiring.

**18.** Application formalization:

**18.1.** The applications are formalized at the electronic address <http://www.cibio.pt> with following documents in a digital form, in PDF format:

- i) Curriculum vitae
- ii) Motivational Letter
- iii) Qualifications Certificate
- iv) Other relevant documentation

**18.2.** The application period is from **23/042021 to 06/05/2021**.

**19.** All candidates who formalize their applications in an improper way or fail to prove the requirements imposed by this tender are excluded from admission. In case of doubt, the panel is entitled to request any candidate to present further documentation supporting their statements.

**20.** False statements provided by the candidates shall be punished by law.

**21.** Both admitted and excluded candidate list and final classification list shall be published at the address of ICETA (Praça Coronel Pacheco nº 15-6º andar, Porto), in the website of the Institute and the selected candidate shall be notified by email.

**22.** Preliminary Hearing and Final Decision Deadline: After publication, all candidates have 10 working days to respond. Panel's final decisions are pronounced within a period of 90 working days, from response period deadline.

**23.** This tender is exclusively destined to fill this specify position and can be terminated at any time until approval of final candidate list, expiring with the respective occupation of said position.

**24.** Non-discrimination and equal access policy: ICETA actively promotes a non-discrimination and equal access policy, wherefore no candidate can be privileged, benefited, impaired or deprived of any rights whatsoever, or be exempt of any duties based on their ancestry, age, sex, sexual preference, marital status, family and economic conditions, instruction, origin or social conditions, genetic heritage, reduced work capacity, disability, chronic illness, nationality, ethnic origin or race, origin territory, language, religion, political or ideological convictions and union membership.

**25.** The panel has approved this announcement in meeting held on 04/03/2021.

**26.** According to Decree-Law no. 29/2001 of 3 February, disabled candidates shall be preferred in a situation of equal classification, and said preference supersedes any legal preferences. Candidates must declare, on their honor, their respective disability degree, type of disability and communication/expression means to be used during selection period on their application form, under the regulations above.
